

Leading Designers of Houston

A Style of Individuality

Inspiration comes in many forms, and for the creative design team at Eklektik Interiors, inspiration is most especially found in the clients themselves.

“We work really hard at what we do,” says owner and principal designer Kathy Anderson. “We’re a diverse team that brings a wide range of skill sets and experiences to the table, and this means that unique, one-of-a-kind design isn’t just our strength. It’s what drives and defines us.”

Whether they’re traveling across the world to learn about the newest lighting and design trends or scouring estate sales to find pieces to repurpose, the Eklektik team can easily be described as style masters. “We take the time to figure out our clients’ ideas, and our number one goal is for

them to enjoy the process,” says Kathy.

As a result, Eklektik Interiors easily lives up to its name, collaborating to create spaces that exude depth and beauty. “We’re not focused on creating our own signature style,” says Kathy. “We’re focused on helping clients understand each step of the design process so we can deliver a highly personalized design that respects their time and their budgets. We love to create beautiful spaces that enhance flourishing environments.”
