

# Creating Beautiful Environments for Exceptional Living

The designers of Eklektik Interiors, led by Owner and Principal Designer, Kathy Anderson strive with each and every project to fulfill this mission statement. Kathy and her talented and experienced team believes the design process should be an enjoyable and exciting adventure for the client—one that begins with an open exchange of ideas to ensure their wishes are heard and implemented. The expertise of Eklektiks' designers will capture your personal style in a comprehensive design that is not only beautiful but functional and supportive of your lifestyle. From new home specification to remodel or just a simple 'facelift' Eklektik Interiors provides creative and practical design solutions. Eklektik (eclectic) means the best of various styles. With their infectious passion and knowledge of design, Kathy and her exceptional team of designers work hard to create spaces that surpass the expectations of each client and along the way they have a great time! Kathy feels, "We sometimes hate for a job to be over because it was so much fun. Our goal is for our clients to feel the same way." With this approach to each project, Eklektik Interiors, is changing how people look at design and how it affects their lives. 'It is all about exceptional living.' Let us help you create the environment of your dreams! *Eklektik Interiors, 1300 Shepherd Drive, Houston, TX 77007, 832.804.6300, eklektikinteriors.com*

Not only are we eclectic in our designs but our team is quite diverse as well. We have designers/architects from India, France, Hong Kong, Barbados and many parts of the United States. I love our diversity and I believe it sets us apart.
