oh what you've been missing!

The experienced design staff of Eklektik Interiors will help you create a space that is unique to you and an expression of who you are. Our designers and decorators work with individuals to determine needs and design a plan suited to your budget. In redecorating and remodeling, our expertise provides creative and practical advice. In new custom construction, we represent your interests in working closely with your builder to design the best home possible. "A good designer is a great resource and protects your investment," states owner and Principle Designer, Kathy Anderson-Giddens. "Starting at the blueprint stage with a designer will save you time, stress and money."

Eklektik Interiors offers fine furnishings and accessories for every taste. Our 12,000-sf showroom provides ideas for combining various styles and influences. To bring a more contemporary look to your antique pieces, Pat Clark, showroom decorator, suggests, "Don't be afraid to introduce contemporary elements to your room to breathe new life into an heirloom piece."
